

## 2016-2017 Halcyon Dialogue Sponsorship Opportunities

Halcyon, in partnership with the American Association for the Advancement of Science (AAAS), is excited to announce the launch of the 2017 Halcyon Dialogue, a series of high-level discussions among global leaders, experts and innovators.

The Halcyon Dialogue series focuses on the topic of robots and their broad implications for global society. The discussions will involve policy leaders and innovators from industry and academia. These invitation-only quarterly sessions will be held at Halcyon headquarters, a creative space for 21st century problem-solvers in the heart of Georgetown on the following dates:

*First Session: October 2016      Second Session: December 2016/January 2017*  
*Third Session: March/April 2017      Fourth Session: June/July 2017*

An interim public session will take place at AAAS headquarters in downtown Washington, DC, and the Dialogue will conclude in September/October 2017 with the release of a report highlighting the outcomes of the series at a public event and robot exhibition at Halcyon House.

Sessions will focus on opportunities and challenges presented by the introduction of robots into everyday life. Halcyon Dialogue will examine the technical achievements of the evolving field of robotics; explore how the field is, or may be, affected by public opinion and policy; and examine the broader social implications raised by integrating robots into the everyday lives of people. Actionable reports and recommendations for future research and policy will be produced for wide dissemination.
